Machine Examination: Machine examination will start at 8:00 and finish at 09:30. The machine presented must be the same as on the entry form and must be scrutineered before signing on at least 15 minutes before the allocated start time. Any rider who has not presented his/her machine for examination will be deemed to be a non-starter.

Machine Eligibility: The event is open to machines that are fully legal to use the Public Highway equipped with Trials Spec Tyres (front and rear) and be silenced to comply with TSR 14.

Trail Bikes: Open to machines that comply with the following in addition to the above:

1. Wheelbase not less than 1350mm
2. Minimum 5 litre fuel tank
3. Minimum seat length 350mm

(Note: this clearly includes most Enduro Bikes.)

The organisers reserve the right to re-class entries as appropriate.

Pre65's must be fully road legal. Other requirements are to be within the spirit of Pre65's.

Other Road Legal Bikes: This includes bikes that do not comply with the Trail Bike specification, e.g. Montesa Four Rides.

Note: Trials bikes or converted Trials bikes are not allowed.

Start and End Times: First riders start at 09:00 and following riders at two per one minute interval. **A time allowance to complete the course may apply.**

Course: The course is approximately 90 miles long and will include public roads, old county roads and byways in the Wye Valley, Gloucestershire, and Monmouthshire areas. ***Other traffic may be encountered, and the law must be complied with along the entire length of the course. Riders MUST give way to walkers, horses, and cyclists.*** Observed sections will be on a mixture of "Green Roads" and private land.

Navigation: The route must be followed throughout: penalty for missing any part is 10 marks for a missed section – if in the opinion of the organisers the rider is seeking an unfair advantage, the option to exclude is open. The onus of finding sections rests with the rider. A route will be provided with the final instructions. To reduce the environmental impact there will be minimal course marking, occasionally obscure junctions may be signed with day-glow arrows, but most of the route will need to be navigated from the route card provided together with OS Explorer maps. Landranger series Maps 162 (or OL14) and 171.

All riders must carry a copy of the roadbook (we will check at the start - you have been warned - and do not expect the organisers to carry a supply of printed copies to the start).

Sections/Routes: Standard trials marking will be used throughout: 0, 1, 2, 3, 5. The Trial is a no-stopping trial (TSR22B). Most sections can be viewed from the 'begins' but riders are free to inspect the sections before attempting – without penalty (TSR18). Standard Route Section markers will be Blue on Left and Red on Right.

Special Tests: TSR23 will be used to determine the result in the event of a tie including one or more special tests of an *acceleration and braking* type. Riders will start with the front spindle on a line AA, accelerate to line BB and then stop before line CC. After stopping, any rider not astride their machine and upright, or having the front wheel spindle past line CC or before BB, will collect a penalty of 10 seconds more than the slowest rider.

Fuel: Fuel and refreshments are available at the lunch stop approximately 45 miles from the start.

More information will be available on the club website.

Tyres: ALL classes: BOTH tyres must be trials pattern – i.e. no Enduro or Motocross tyres. All tyres must be road legal. The excuse that “my bike came fitted with these tyres as standard” will not be accepted. Riders with ineligible tyres will not be allowed to start. Important note for this year - Maxxis Trialmaxx tyres **will be allowed.**
